WE MAKE

EVERY THING. FOR YOU.

Web, identity and print.

SCREEN → PAPER

An introduction to what we make.

YOU BRING THE IDEA.

We build the rest.

SIC STUDIOS is an independent web, identity and print studio in the Arts District, Los Angeles. We design and build websites and brand identities for brands, creatives and local businesses, with a print studio's eye for detail.

ONE POINT OF CONTACT.

From the first conversation to launch day.

START SMALL. MAKE SOMETHING BIG.

02 **ONLINE STORES**

CONCEPT

STARTS HERE.

01 PLAN.

We clarify what you need: the goal, the audience, the pages or pieces, the timing and the budget.

02 DESIGN.

We create the identity, layouts and content structure, then share it for feedback before anything is built.

IDEA → DESIGN → FEEDBACK

→ LIVE.

MADE REAL.

03 BUILD.

We build the website or produce the files, and coordinate printing with trusted partners, including Magenta Color Print in Los Angeles.

04 LAUNCH.

We test everything, launch it and stay on for updates, with optional monthly support.

Magenta Color Print is independently operated.
SIC STUDIOS remains your project contact.

LOOK CLOSER.

Paper. Ink. Pixels.

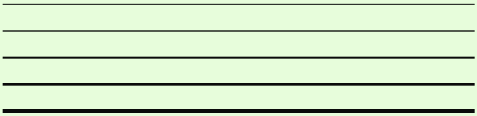

SCREEN TO PAPER.

THE SAME CARE, EVERYWHERE.

03 / TYPE

Small details.

Big difference.

This page is the proof. Solid color, fine lines and small type: the same attention to detail goes into every website and identity we make.

HAVE SOMETHING IN MIND?
